BOX CULVERT INSTALLATION ON NH ROUTE 121 IN HAMPSTEAD
WILL REQUIRE A LANE CLOSURE FOR UP TO THREE WEEKS

The New Hampshire Department of Transportation announces work is scheduled to begin Wednesday, October 1, 2003 on the installation of a box culvert on NH Route 121 in Hampstead. The pre-cast concrete culvert will serve as part of a state trail system on a former railroad corridor.

Beginning Saturday, October 11, a lane closure will be required for up to three weeks in order to complete the project. Flaggers will assist traffic through the work zone. Some delays can be expected.

Busby Construction, Inc. of Atkinson, New Hampshire is the contractor for the \$117,000 project.
